

Letter of Recommendation for Jorge Gomez

From: Robert Elms – Lead Level Designer at Cloud Imperium Games

Contact: robert.elms@gmail.com

To Whom It May Concern,

I am pleased to write this letter of recommendation for Jorge Gomez, whom I have had the privilege of working with for the past four years. As a Level Designer, Jorge has consistently demonstrated exceptional creativity, problem-solving skills, and a strong commitment to delivering high-quality work.

Jorge is always up for a challenge, approaching complex design tasks with enthusiasm and a solutions-oriented mindset. He is highly receptive to feedback, using it as an opportunity to refine his work while also not hesitating to raise potential issues that could impact the project. His ability to balance constructive criticism with his own insights makes him a valuable asset to any team.

Beyond his technical expertise, Jorge is a true team player. His positive energy and enthusiasm uplift those around him, fostering a collaborative and motivated work environment. Whether supporting his peers or driving a project forward, he consistently contributes to the team's success.

I highly recommend Jorge for any opportunity where his skills and dedication can be put to good use. He would be a tremendous addition to any team looking for a passionate and talented Level Designer. Please feel free to reach out if you need any additional information.

Sincerely,

Robert Elms
